

ISAPP is a non-profit association of multidisciplinary academic and industrial scientists involved in research on fundamental and applied aspects of probiotics and prebiotics. ISAPP is run by an all-academic board of directors.

The scientists participating in ISAPP have a common interest in advancing probiotic and prebiotic basic and clinical research, and working to raise the credibility of the field. ISAPP convenes scientific symposia, publishes prolifically on key issues, convenes consensus panels, engages regulatory bodies and otherwise provides opportunities to advance the field.

Through targeted communication efforts, ISAPP seeks to inform end-users and those recommending probiotic and prebiotic products, to help them make informed, science-based choices.

ISAPP is the only global scientific organization dedicated to probiotics and prebiotics.

# ISAPP

INTERNATIONAL SCIENTIFIC  
ASSOCIATION FOR PROBIOTICS  
AND PREBIOTICS

International Scientific  
Association for Probiotics  
and Prebiotics

## Highlight of ISAPP Activities

- 15 Annual Meetings in Europe and North America since 2002
- New Infographics and videos to explain to consumers the science of probiotics, prebiotics and the microbiome
- Work with medical organizations to facilitate evidence-based use of products
- Interact with regulators
- Numerous peer-review publications:  
*ISAPPscience.org/publications*
- ISAPP blog featuring monthly perspectives by experts
- Students & Fellows Association
- Partnerships with various other associations and meetings all over the world

### STEWARDSHIP

Individually and collectively, we endorse the proper use of the terms 'Probiotics' and 'Prebiotics'

### ADVANCING THE SCIENCE

We encourage research by facilitating interactions among scientists in the field, helping regulators understand the science, and publishing evidence-based summaries that highlight research gaps and promote needed research

### EDUCATION

We endeavor to disseminate scientifically accurate information on probiotic, prebiotic and microbiota science to enhance understanding of the science among researchers, students, and regulators

## Membership Inquiries

International Scientific  
Association for Probiotics  
and Prebiotics

## *Benefits of Industry Membership*

Receive 2 complimentary  
registrations to ISAPP's  
Annual Meeting

Participate in the Discussion  
Forum, a by-invitation only event  
on June 7

Provide input into annual  
meeting topics

Suggest ISAPP action items

Be acknowledged as an IAC  
member, supporting the premier  
voice of science in the fields of  
probiotics and prebiotics

Opportunity to become Platinum,  
Gold, Silver, or Bronze Sponsor for  
additional recognition at the  
Annual Meeting in Singapore

## The Role of Industry

The Industry Advisory  
Committee (IAC) was  
established to advise the ISAPP  
Board of Directors on issues  
important to the probiotic and  
prebiotic fields and to contribute  
scientifically to ISAPP's many  
activities.

The 2017 IAC comprised over  
40 companies from around the  
world, representing the most  
science-based, research-  
focused companies in the field.

ISAPP is seeking new Asian-  
region industry partners to fully  
participate in ISAPP activities  
and provide a better perspective  
of issues important to Asian.

*"ISAPP membership expands and  
strengthens our scientific and  
regulatory network on prebiotics,  
which can help us in future  
collaborations."*

*We invite your company to  
JOIN TODAY and attend the  
2018 Annual Meeting as an  
IAC member*

*Singapore  
June 5-7, 2018*

*"The annual meeting is very  
valuable to be informed of the  
latest developments in science in  
the field of pro- and prebiotics  
with excellent speakers."*
